Education

FAST-NUCES, Lahore — Jun 2025
Bachelors of Computer Science ***Lahore, Punjab***

- Relevant Coursework: Programming Fundamentals, Object Oriented Programming, Data Structures and Algorithms, Databases.

Punjab Group of Colleges, Lahore — Oct 2021
FSC Pre-Engineering ***Lahore, Punjab***

The Trust School, Lahore — Jul 2019
Computer Science ***Lahore, Punjab***

Experience

Zong — Jul 2025 – Present
Full Stack AI & React Native Developer ***Lahore, Punjab***

- **Compliance Orchestration Platform**: Built a React + Supabase web app featuring a dashboard, compliance calendar, evidence records, and multi-step approval workflows, deployed on an Ubuntu Linux VM hosted on Zong's infrastructure.
- **Smart Fueling Portal**: Built a React + Supabase web app that forecasts adverse weather by area to schedule DG generator refueling in advance, sends automated WhatsApp alerts with site-wise fuel levels, and highlights affected sites on an interactive map.
- **Built an NL-to-SQL AI agent using Python and FastAPI** that accepts natural language prompts, translates them into SQL queries, retrieves data from a database, and returns results with an average response time of 3 seconds.
- **Zong Fueling Mobile App**: Designed and developed the Zong Fueling App with Supabase backend integration and a real-time dashboard for tracking fuel transactions and operational transparency.
- **Site Load Web App**: Built a React + Supabase web app that flags whether a tower is overloaded upon adding equipment, using complex backend calculations to validate site load capacity in real time.
- **Expense Tracker Mobile App:** Built the Expense Tracker mobile app featuring real-time data sync via Supabase and an interactive dashboard for personal expense reporting and budget tracking.
- **Site Finder Mobile App:** Created the Site Finder app with a scalable, performance-optimized frontend and a Supabase-powered real-time dashboard to display and report on nearby site locations.

Webring Ltd — Feb 2025 – April 2025
MERN Full Stack Developer ***Lahore, Punjab***

- Led the end-to-end development of a scalable company website for a webring using the MERN stack (React, Node.js, Express, MongoDB).
- Implemented a fully responsive UI with React and Chakra UI, guaranteeing an optimal user experience on all screen sizes.
- Produced dynamic, responsive websites leveraging the MERN stack within a professional work environment, meeting client and business requirements.

CSG Pakistan Feb 2025 – April 2025

Web Developer Intern ***Lahore, Punjab***

- **Developed a client landing page** using HTML, CSS, and JavaScript, featuring a responsive layout and dynamic form validation.
- **Optimized page** assets which reduced load time by 25% and ensured cross-browser compatibility.

Projects:

School Website: Developed and deployed a responsive school website using Next.js, hosted live on the internet with a purchased custom domain.

Stock Management Web App: Built a Next.js + Supabase stock management web app with authentication, enabling secure user access and real-time inventory tracking.
